FLYRID® Premium FlyMask

Description

The Durvet/Kensington Premium Fly Mask is designed with a U.S. patented mesh material known as **TEXTILENE®**. This material, made exclusively by Kensington, is 1000x2000 denier mesh. **TEXTILENE®** is the strongest material on the market today and the absolute best way to protect your horse. This fly mask not only shields your horse from biting insects, but also provides protection from the sun with 73% UV protection. This material is specially formulated to withstand fading, soiling, wear and tear, and is mildew resistant, fire retardant, and cleans up easily. Wearing this fly mask allows your horse full visibliity with the maximum protection from dirt, dust and debris for the face and eye areas.

With Ears

Without Ears

Benefits

- Lifetime warranty
- Clear vision
- Double eye darts for better eye protection
- Fly Resistant - woven so tightly it resists biting flies and insects
- 73% UV Protection - blocks up to 73% of UV rays
- 78% Air Permeable - air circulates freely, helping to dry moisture
- U.S. Patented TEXTILENE® Mesh
- Double locking fastener with elastic at throat
- Fire Retardant - fabric self-extinguishes when removed from flame; does not exhibit any burning afterglow
- Mini Fly Masks contain Velcro® at the crown and under throat for maximum adjustability
- Available in two styles: with ears for full coverage and protection, or without ears
