Aloe advantage

Cleanser with Phenol

STEP 1 CLEANSE

Veterinarian Recommended

Description

Just point and spray for effective flushing and cleansing of wounds and skin conditions. No rinsing needed. Phenol inhibits bacterial growth and provides a localized analgesic for quick pain relief. Your horse is immediately more comfortable and safe to treat. The adjustable trigger sprayer makes it easy to cleanse hard to reach areas. Gentle yet very effective. Does not sting or stain.

Features & Benefits

- For minor cuts, abrasions, insect bites and skin problems.
- Sprayer makes it easy to cleanse hard to reach areas. No cross contamination or messy application. Just point and spray.
- Dislodges the crust-like scab/exudate caused by tick bites.
- Stream setting flushes away dead and decayed tissue and debris.
- Aloe vera is soothing and is shown to contain anti-oxidant components.
- Non-irritating aloe vera formula removes debris, foreign particles and devitalized tissue.
- Will not harm healthy tissue.
- Phenol in dilution is an antimicrobial and topical anesthetic and antipruritic.
- No-rinse formula

For Use On

For use on horses, goats, livestock and dogs

Ingredients

Deionized water, aloe barbadensis leaf juice, 0.4% phenol, sodium hydroxide

Directions for Use

Adjust sprayer to stream setting to flush away dead tissue and debris from the wound site. Do not rinse cleanser. Allow to dry. Follow up by applying Hydrogel Treatment with Phenol and/or Aloe Creme. Also, treat the area extending a couple of inches from the wound. Cleanse wound once a day with Cleanser with Phenol. Continue to cleanse and treat wound daily until wound has healed or as directed by your veterinarian.

Packaging

16 ounce trigger spray bottle, 12 bottles per case UPC#: 8-13049-00310-5
