DURVAC LEPTO

5

10 Doses
20 mL

INDICATIONS: For use in healthy cattle and swine as an aid in the prevention of leptospirosis caused by the micro-organisms named. Contains thimerosal as a preservative. Product is aluminum hydroxide adsorbed.

DIRECTIONS: Do not vaccinate within 21 days before slaughter. Shake well before use. Use entire contents when first opened. Store at 2° to 7° C. Do not freeze.

PRECAUTIONS: Anaphylactoid reaction may occur following administration of products of this nature. If noted, administer adrenalin or equivalent.

DOSAGE AND ADMINISTRATION: Inject 2 ml intramuscularly or subcutaneously. For swine, a second dose should be administered 2-4 weeks later. Annual single dose re-vaccination is recommended for both species.

FOR VETERINARY USE ONLY
