TOTAL NET WT 32 OZ (907g)

TREATS ONE ACRE 6 FEET DEEP
TREAT EVERY 60 TO 90 DAYS YEAR ROUND FOR OPTIMUM PERFORMANCE WITH NO IRRIGATION OR WATER RESTRICTIONS.

durvet

BLACK POND DYE

WITH **Suspend™**
Technology

Nontoxic.
Safe for fish,
livestock &
all wildlife.

How does Suspend Technology work?

It is a proprietary process that mechanically changes the dye molecule. By reducing its particle size, the dye is protected from fallout, adding longevity to the solution, positively affecting color and treatment duration.

Easy to use
and Eco-safe.

NO
irrigation
or water
restriction.

Professional results for all water features.

AquaVet products are used by Golf Course Professionals and Aquatic Managers.
