PERFORMANCE WITH NO IRRIGATION OR WATER RESTRICTIONS.

How does Suspend Technology work?

Nontoxic.

Safe for fish.

livestock &

all wildlife.

It is a proprietary process that mechanically changes the dye molecule. By reducing its particle size, the dye is protected from fallout, adding longevity to the solution, positively affecting color and treatment duration.

Easy to use and Eco-safe.

Professional results for all water features.

AquaVet products are used by Golf Course Professionals and Aquatic Managers.
