

# A Brief History Of NU-STOCK

Thanks for looking at our all purpose Nu-Stock. It has been tried and tested for over 50 years. It is basically an old country cure all, that originated from a Cherokee Medicine Man who lived in East Tennessee. It will heal up just about anything you can see on the outside of your pet. On dogs and cats it will kill the mites that cause all types of mange, it also works wonders on ear mites, hotspot, hairloss and ringworm. It stops the itching immediately and then regrows the hair. It will also heal any type of wound, bite or laceration. On horses when used on wounds it heals from the inside out, prevents proud flesh and doesn't leave any scar tissue, then it regrows the hair back to the original color, it reduces swelling and will regrow hair on old wounds. It has saved the career of many show horses. It is also excellent for rain rot, dew poisoning, mud poisoning and works wonders on scratches. A good general rule of thumb is to apply it once every 3 days or as needed. We guarantee you will like the results of our Nu-Stock or your money will be promptly refunded.

"I have used the product "NU-STOCK" for nearly four years (since 1990). I consider it to be the best all-around topical treatment for wounds in my practice...If I could only keep one topical medication, of all the ones that are available, it would be "NU-STOCK." I recommend it to all my clients very highly.
