

Permethrin 10%

Rapid Kill Insecticide Concentrate

Description:

Durvet's Permethrin 10% is a long-lasting livestock and premise spray that provides knockdown and broad spectrum kill.

Approved For Use On:

Dairy cattle, beef cattle, horses, sheep, goats, dogs, swine, poultry, livestock premises and homes.

Directions for Use:

See product label for specific directions.

Benefits:

- **EFFECTIVE INSECT CONTROL ON ANIMALS** - Permethrin 10% can be used on dairy and beef cattle, sheep, goats, swine and poultry. Plus, it is labeled for effective control of insects on horses and dogs.
- **INDOOR AND OUTDOOR PREMISE INSECT CONTROL** - Use it in homes and non-food areas of poultry houses, dairies, cattle barns, milking parlors, horse barns, swine houses, warehouses, restaurants and kennels.
- **BROAD SPECTRUM OF CONTROL** - Kills darkling beetles, bed bugs, poultry lice, fowl mites, horn flies, house flies and face flies. Plus controls fleas, ticks, lice and mange mites.
- **SAFE** - Permethrin is highly toxic to the insect with a very low toxicity to humans and animals.
- **ECONOMICAL** - One quart of Permethrin 10% makes approximately 25 gallons of ready-to-use product.
- **CONVENIENT MIXING** - Packaged in a squeeze-and-pour bottle.
