

SUPER II Dairy & Farm Spray

Ready-to-use pyrethrins + vapona

Indications:

Super II Dairy & Farm Spray is a ready-to-use dual-purpose formula (pyrethrins + vapona) designed to protect dairy and beef cattle from attacks of biting flies in barns and out in the pasture, and also to function as an effective space spray for quick knockdown and kill of flies in barns.

Contains 0.05% Pyrethrins, 0.1% PBO, and 0.50% DDVP and can be applied in animal space and premises. Controls flies, mosquitoes, gnats and lice, and can be used in dairy barns, feed lots, and stables for dairy and beef cattle.

Approved For Use On:

Cattle, Goats, Horses, Sheep, Swine and Premises

Product Advantages:

- Contains two insecticides and one synergist for maximum effectiveness
- Pyrethrins and Vapona insecticide combination provides quick knockdown plus residual kill
- Piperonyl Butoxide is a synergist to reduce the insects' ability to resist insecticides
- Can be sprayed directly on livestock
- Can be used as a fogging spray. One ounce treats 1,000 cubic feet, while most other competitive sprays require up to twice as much spray.
- Contains petroleum distillate

Active Ingredients:

Pyrethrins.....	0.05%
