Helps maintain normal
electrolyte balance
year round

For horses of
all classes

UP TO 80
DAY SUPPLY

Apple
Flavored

Designed for the support of normal recovery time after strenuous activity and helps maintain a normal electrolyte balance year round.

Feeding Directions: For the high performance horse feed 3 to 4 ounces per day. For moderate exercise feed 2 to 3 ounces per day. For maintenance or light working feed 1 to 2 ounces per day. May be added to drinking water or mixed with feed. If added to water, dilute at the rate of one ounce per five gallons of water. The enclosed scoop measures approximately one ounce.

NOTE: When given in water, allow no other source of drinking water. Your horse will love the Durvet signature flavor of fresh apples in DuraLyte-A.

For animal use only. Keep out of reach of children. Store in cool, dry place in sealed bucket.
