Saddle SOAP

Glycerin Bar

Cleans all smooth leathers, boots, shoes, saddles, bridles, and large leather items. Removes embedded dirt and sweat, leaves leather supple with a soft luster.

DIRECTIONS: First remove all dust and dirt with a soft brush or rag. Using a damp sponge or microfiber cloth, work Saddle Soap into the leather until foam disappears. Allow leather to dry. Buff to a luster with soft cloth.

Made in the U.S.A.
