

DuraLyte

CALF

Electrolytes & Activated Clay

Contains a source of live (viable) direct fed microorganisms as well as electrolytes, activated clay and other digestive supplements.

RECOVER

Description:

Contains a source of live (viable) direct fed microorganisms as well as electrolytes, activated clay and other digestive supplements. Can be used as adjunct therapy with antibiotics or in conjunction with DuraZyme Paste.

Approved For Use On:

Formulated for all classes of cattle.

Ingredients:

Corn oil, Maltodextrin, Sodium bicarbonate, Salt, Potassium chloride, Montmorillonite clay, Glycine, Dried *Enterococcus faecium* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, Fructooligosaccharides, FD&C Blue # 1, FD&C Yellow # 5

Guaranteed Analysis:

Glycine 0.67%, Salt (min) 1.5%, (max) 2.0%, Sodium (min) 5.0%, (max) 5.5%, Total lactic acid producing bacteria (min) 40 million cfu*/gm (*E. faecium*, *L. acidophilus*, *B. longum*, *B. thermophilum*)

*cfu=colony forming unit.

Benefits:

- For Beef and Dairy Calves – wide range of safety in all classes of cattle
- Contains Montmorillonite clay – a special type of clay known for its effectiveness in binding toxins which can slow the onslaught of scours
- Contains host specific DFM's – essential to establish normal gut microflora
- Contains Electrolytes – used to replace essential minerals lost during scours

Directions for Use:

Feed 15-30 gm on the back of the tongue. Repeat as necessary.

Packaging:

30 gm tube, 6 tubes/display, UPC# 7-45801-10516-4
30 gm BULK, 12 tubes/box,
4 boxes/case, UPC# 1-07-45801-10516-1
