

Start calves off right... *naturally!*

Healthy Calf

Durvet's Healthy Calf 24 count display contains four (4) all natural paste formulated products, designed to promote digestive health and supplement new calves.

PREVENT

with DuraMate Calf to promote digestive health.

SUPPORT

with DuraLift Paste, a colostrum supplement with functional proteins.

RECOVER

with DuraLyte Calf to help eliminate toxins in the GI tract.

MAXIMUM STRENGTH

DuraZyme Paste with high levels of egg-based proteins.

Benefits:

- Easy-to-use
- Paste formulation
- Individual dosing
- All natural
- Non-medicated

Packaging:

Healthy Calf 24 count display, 1 display per case, UPC# 7-45801-10508-9

Dimensions: 12.25" L x 9.5" W x 9.375" H

Each display includes:

- Six (6) DuraMate Calf, 30 gm tubes
- Six (6) DuraLift Paste, 30 gm tubes
- Six (6) DuraLyte Calf, 30 gm tubes
- Six (6) DuraZyme Paste, 30 gm tubes

DuraZyme

PASTE FOR CALVES

Contains a source of live (viable) direct fed microorganisms

MAXIMUM STRENGTH

Description:

New maximum strength formulation containing egg based functional proteins designed for use in all newborn beef and dairy calves. Containing a special formulation of lactic acid-producing bacteria, dried milk protein, lactase enzymes and dried egg solids to aid in fighting disease, minimize intestinal infections and enhance appetite and digestion.

Approved For Use On:

Formulated for all classes of cattle.

Ingredients:

Corn oil, Sodium silico aluminate, Dried egg, Montmorillonite clay, Dried whey, Dried *Enterococcus faecium* fermentation product, Dried *Bacillus subtilis* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, Ascorbic acid, Dried *Aspergillus niger* fermentation extract, Fructooligosaccharides.

Guaranteed Analysis:

Total lactic acid producing bacteria (min) 40 million cfu*/gm (*E. faecium*, *L. acidophilus*, *B. longum*, *B. thermophilum*), Salt (min) 1.5%, (max) 2.0%, Sodium (min) 5.0%, (max) 5.5%, Glycine 0.67%.

*cfu=colony forming unit.

Benefits:

- Proven product with proven results!
- For Beef and Dairy Calves – wide spectrum of safety and activity
- Ideal for use in stressed and weak calves – convenient tubes ensure proper dosage
- Safe to use as adjunct therapy – can be administered with antibiotics
- Helps establish gut flora – minimizes intestinal infections and aids in digestion

Directions for Use:

Feed 15 gm on the back of the tongue. Feed 30 gm for severe conditions. Repeat as necessary.

Packaging:

15 gm tube, 6 tubes/display, UPC# 7-45801-10505-8
30 gm BULK, 12 tubes/box,
4 boxes/case, UPC# 7-45801-10514-0
300 gm tube, 12 tubes/case, UPC# 7-45801-10501-0

Also available in a powder formulation & as a part of the Healthy Calf Display!

DuraMate

CALF

Probiotics, Enzymes & Vitamins

Contains a source of live (viable) direct fed microorganisms as well as emulsified vitamins and enzymes for digestive supplementation.

PREVENT

Description:

Most economical product designed to be used on every newborn or incoming calf. Contains bovine specific probiotics to aid in digestive colonization with beneficial bacteria. Also includes essential vitamins and electrolytes to aid in the digestion process.

Approved For Use On:

Formulated for all classes of cattle.

Ingredients:

Corn oil, Vitamin A supplement, Vitamin D₃ supplement, Vitamin E supplement, Thiamine mononitrate, Riboflavin-5-phosphate, Pyridoxine hydrochloride, Vitamin B₁₂ supplement, d-calcium pantothenate, Niacin supplement, Choline bitartrate, Sodium silico aluminate, Dried *Aspergillus oryzae* fermentation extract, Dried *Aspergillus niger* fermentation extract, Dried *Enterococcus faecium* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, Maltodextrin, Polysorbate 80.

Guaranteed Analysis:

Total lactic acid producing bacteria (min) 40 million cfu*/gm (*E. faecium*, *L. acidophilus*, *B. longum*, *B. thermophilum*), alpha Amylase (*A. oryzae*) 1125 µg starch hydrolyzed/min/gm, Protease (f) 150 µg proteins hydrolyzed/min/gm, Cellulase (*A. niger*) 60 µg cellulose breakdown/min/gm, Lipase (*A. oryzae*) 45 µg triglycerides hydrolyzed/min/gm, Pectinase (*A. niger*) 30 µg pectin breakdown/min/gm.

*cfu=colony forming unit.

Benefits:

- For Beef and Dairy Calves – wide spectrum of safety
- Economically priced – provides every calf a chance to get started right
- Contains five essential enzymes – aids in breaking down complex proteins to amino acids that can be utilized by the calf for nutrient absorption
- Contains fat-soluble vitamins – produced in an emulsified form, allows the vitamins to reach peak blood levels faster
- Contains host specific probiotics – aids in digestive health

Directions for Use:

Feed 15 gm on the back of the tongue. Feed 30 gm for severe conditions. Repeat as necessary.

Packaging:

30 gm tube, 6 tubes/display, UPC# 7-45801-10512-6
30 gm BULK, 12 tubes/box,
4 boxes/case, UPC# 1-07-45801-10512-3

DuraLift

PASTE

Colostrum Supplement & Functional Proteins

Contains a source of live (viable) direct fed microorganisms as well as high quality bovine colostrum and functional proteins.

SUPPORT

Description:

Contains host specific direct fed microorganisms, as well as high quality bovine colostrum and egg based functional proteins. DuraLift is recommended to be used as a colostrum supplement where colostrum deficiency is suspected.

Approved For Use On:

Formulated for all classes of cattle.

Ingredients:

Corn oil, Sodium silico aluminate, Dried bovine colostrum, Dried egg product, Dried *Enterococcus faecium* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, FD&C Blue # 5, FD&C Yellow # 1, Polysorbate 80.

Guaranteed Analysis:

Total lactic acid producing bacteria (min) 40 million cfu*/gm (*E. faecium*, *L. acidophilus*, *B. longum*, *B. thermophilum*).

*cfu=colony forming unit.

Benefits:

- For Beef and Dairy Calves – wide margin of safety and efficacy
- Contains a high level of bovine colostrum – supplement whenever colostrum deficiency is suspected
- Contains host specific DFM's – essential to establish normal gut microflora
- Egg based functional proteins – aids in the digestive gut balance whenever the following are present: *E. coli*, Salmonella, Rotavirus, Coronavirus or Clostridia

Directions for Use:

Feed 15 gm on the back of the tongue. Feed 30 gm for maximum digestive support. Repeat as necessary.

Packaging:

30 gm tube, 6 tubes/display, UPC# 7-45801-10510-2
30 gm BULK, 12 tubes/box,
4 boxes/case, UPC# 1-07-45801-10510-9

DuraLyte

CALF

Electrolytes & Activated Clay

Contains a source of live (viable) direct fed microorganisms as well as electrolytes, and activated clay for digestive supplementation.

RECOVER

Description:

Contains a host specific source of live, viable direct fed microorganisms as well as electrolytes and Montmorillonite clay for digestive supplementation. Can be used as adjunct therapy with antibiotics or in conjunction with DuraZyme Paste.

Approved For Use On:

Formulated for all classes of cattle.

Ingredients:

Montmorillonite clay, Corn oil, Maltodextrin, Sodium bicarbonate, Salt, Potassium chloride, Dried *Enterococcus faecium* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, Glycine, Fructooligosaccharides, FD&C Blue # 1, FD&C Yellow # 5, Polysorbate 80.

Guaranteed Analysis:

Total lactic acid producing bacteria (min) 40 million cfu*/gm (*E. faecium*, *L. acidophilus*, *B. longum*, *B. thermophilum*), Salt (min) 1.5%, (max) 2.0%, Sodium (min) 5.0%, (max) 5.5%, Glycine 0.67%.

*cfu=colony forming unit.

Benefits:

- For Beef and Dairy Calves – wide range of safety in all classes of cattle
- Contains Montmorillonite clay – a special type of clay known for its effectiveness in binding toxins which can slow the onslaught of scours
- Contains host specific DFM's – essential to establish normal gut microflora
- Contains Electrolytes – used to replace essential minerals lost during scours

Directions for Use:

Feed 15 gm on the back of the tongue. Feed 30 gm for severe conditions. Repeat as necessary.

Packaging:

30 gm tube, 6 tubes/display, UPC# 7-45801-10516-4
30 gm BULK, 12 tubes/box,
4 boxes/case, UPC# 1-07-45801-10516-1
