TURN OUT®

Sweat and Water Proof Formula

Description:

TURN OUT® sweat and waterproof formula is a ready to use insecticide and repellent that stays active for 14 days.

For Use On:

Horses, ponies, foals, dogs, puppies and as a premise spray.

Product Benefits:

- Protection for pastured horses, ponies, and foals for up to 14 days.
- Kills and repels stable flies, horn flies, house flies, horse flies, deer flies, face flies, gnats, ticks, lice and mosquitoes, including those that may transmit West Nile Virus.
- Weatherproof formula binds to the hair shaft to repel and protect from insects through sweat, rain, dust and dirt for up to 14 days.
- Water based

Directions for Use:

Use to Wipe On:

First brush animal to remove excess dirt and dust. Moisten (but do not wet to the point of dripping) a soft cloth and rub over the hair. It is best to apply by rubbing against the hair growth. Apply to common areas where flies will gather: legs, shoulders, flanks, neck and facial areas. Only a light application is required. After application, brush out thoroughly to bring out a bright sheen on the coat. Repeat daily as needed.

Use to Spray On:

TURN OUT® may be applied as a fine mist spray to the flanks, face, legs, topline and other areas where flies congregate. Do not wet horses skin or exceed two ounces per application. After application, brush out thoroughly to bring out a bright sheen on the coat. Repeat daily as needed.

**Stays
Active for
14 Days**

**Sweat and
Water Proof
Formula**

Active Ingredients:

Permethrin*	0.20%
Pyrethrins.....	0.10%

Application/Reapplication	For initial treatment, apply 1-2 ounces daily for 2-3 days. As infestation subsides, repeat treatment every 7-14 days or as prescribed by a veterinarian. Also, re-apply every time animal is washed or exposed to heavy rain.	Reapply every 14 days for fly control normal conditions for initial applications. As protection builds, reapply every 14-17 days. Reapply every 5-7 days for mosquito repellency. Also reapply each time animal is washed thoroughly, particularly if with shampoo or soap.	Application should be liberal for best results. Reapply every 5 to 7 days under normal conditions for initial applications. As protection builds, reapply every 10 to 14 days as needed. Also, reapply each time animal is washed or exposed to heavy rain.
