**Contains no
CFC's or other
ozone depleting
substances.****Directions for Use:****See label for complete directions and precautions.**

TO START FOGGING: SHAKE FOGGER WELL BEFORE USING: Hold can at arm's length with top of can pointing away from face and eyes. Push down on finger pad until it locks. This will start fogging action. Set canister in an upright position on a table, stand, etc. (up to 30 inches high in the center of the area) and place several thicknesses of newspaper under the canister to prevent marring of the surface. Treat the whole dwelling using multiple units in homes with more than one level and numerous rooms. Leave the building at once.

DO NOT RE-ENTER BUILDING FOR TWO HOURS: After two hours, open all outside doors and windows, turn on air conditioner and/or fans and let treated area ventilate for 30 minutes before reoccupying. If additional units are used for remote rooms or where free flow of fog is not assured, increase ventilation time accordingly.

Packaging:

Three 6 oz. cans per box, 12 boxes per case UPC# 7-45801-01131-1 Box UPC# 7-45801-71131-0
