

SHIELDTECTM FOR Plus DOGS

**CONTAINS PERMETHRIN AND
PYRIPROXYFEN, THE ACTIVE
INGREDIENTS USED IN
VETGUARD PLUS[®] FOR DOGS**

NEW SHIELDTECTM PLUS FOR COMPLETE FLEA & TICK CONTROL

Fleas, ticks and mosquitoes are more than just a nuisance, they can be deadly. ShieldTecTM Plus kills adult fleas, ticks and mosquitoes, prevents eggs and larvae from developing into adults, and repels new pests for complete and total flea and tick control for dogs.

ShieldTec Plus contains two active ingredients to stop troublesome pests. Permethrin kills and repels adult fleas, ticks, mosquitoes and lice for up to four weeks, and pyriproxyfen insect growth regulator destroys eggs and larvae to prevent new infestations. ShieldTec Plus is for use only on dogs. **DO NOT USE ON CATS.**

**AN AFFORDABLE ALTERNATIVE, SHIELDTEC
PLUS REPELS AND CONTROLS PESTS TO
PROTECT YOUR DOG AT A FRACTION OF THE
COST OF OTHER FLEA AND TICK TREATMENTS.**

EFFECTIVE AND EASY TO USE.**

**TREATING YOUR DOG WITH
SHIELDTEC PLUS PREVENTS
FLEA EGGS FROM DEVELOPING
INTO BITING ADULTS
FOR UP TO 4 MONTHS.**

HOW TO APPLY

Only For Dogs Weighing more than 5 lbs and over 12 weeks of age

Remove the tube from the package. Hold the tube upright and twist off the cap. Invert the tube over the dog and use the open end to part the dog's hair.

Apply one tube of product as a spot to the skin at three different locations along the dog's back between the shoulder blades and base of the tail. Squeeze tube to apply all of the solution to the dog's skin.

As with all flea and tick control products, this product should be used as part of a program aimed at reducing flea populations in the dog's environment (bedding, carpets, kennel, yard).

Important: DO NOT USE ON CATS – MAY BE FATAL
