Zinc-Sol Footbath WITH STABITROL™ TECHNOLOGY

FOOT BATH SOLUTION MIX RATES

Hoof 1-2-3 Amount	Gallons of Water	Final Solution
8 oz	31.25	31.31 Gallons
1 Pint	62.5	62.626 Gallons
1 Quart	125	125.25 Gallons
1 Gallon	500	501 Gallons

Hoof 1-2-3 is safe and effective for complete treatment of bacterial and fungal hoof problems. Rotation of active treatment ingredients is important to prevent resistance and build up of bacteria and fungi in the hoof. The 3-Phases of Hoof 1-2-3, copper, zinc, and the zinc/copper combination, address the need for rotation to prevent and treat a number of hoof disease problems.

Phase 2, zinc sulfate 13% has the unique stabitrol technology, designed specifically to enhance the penetration activity to the hoof in a concentrate for foot bath use. This concentrated solution allows for quick absorption of zinc into the hoof area controlling bacteria and fungi.

MANUFACTURED BY SEA7 TECHNOLOGIES, 10214 CHESTNUT PLAZA #177, FORT WAYNE IN 46814. MADE IN THE USA.
