blisters of 2 or 12
flavored chewables

Drug Facts

Active Ingredients (in each chewable):

pyrantel pamoate (114 mg)
and praziquantel (114 mg)

Purpose: De-wormer
for Medium and
Large Dogs Only (Greater
than 25 pounds).

Uses: For the treatment
and control of:

- Roundworms
(*Toxocara canis*,
Toxascaris leonina)
- Hookworms
(*Ancylostoma caninum*,
Ancylostoma
braziliense, and
Uncinaria stenocephala)
- Tapeworms
(*Dipylidium caninum*,
Taenia pisiformis)

Human Warning:

Keep this and all
medication out of the
reach of children.
To obtain product
information, including
a Safety Data Sheet (SDS),
call 1-800-821-5570.

When Using This Product:

- Consult your veterinarian
for assistance in the

diagnosis, treatment,
and control of parasitism.

- Do not de-worm a dog
or puppy that is sick.
Consult a veterinarian for
diagnosis of the illness.

- **Triple Wormer**
Flavored Chewables are
safe for use in puppies
12 weeks or older and
adult dogs. Safety in
breeding dogs and
pregnant bitches has
not been tested.

You May Notice:

Vomiting, loose stools
(with or without blood)
and decreased activity
following treatment.
If you notice these signs,
contact a veterinarian.

Directions:

Each flavored
chewable contains
114 mg of pyrantel
pamoate and 114 mg
of praziquantel. The
dose for each drug
is 2.27 mg per
pound of body weight
(5 mg/kg). Please
refer to the following
dosing table for help
finding the right dose
for your dog.

Triple Wormer Flavored Chewables Dosing Table

Dog Weight	Number of Chewables
6.0 to 25 pounds	Use the 30 mg size.
25.1 to 50 pounds	1
50.1 to 100 pounds	2
100.1 to 150 pounds	3
150.1 to 200 pounds	4

- You should weigh your
dog to make sure you are
giving the right dose.
- Triple Wormer Flavored
Chewables are palatable
if offered by hand. If
your dog does not
voluntarily eat the
chewable, you can hide
the chewable in a small
amount of food or
place it in the back
of the dog's mouth for
forced swallowing.
- Make sure that the dog
eats the complete dose.
- Watch your dog for a
few minutes after
dosing to make sure the
chewable is not rejected.

Re-treatment: Re-treatment
of your dog may be
necessary as determined
by laboratory fecal examina-
tion and/or if your dog
is living where re-infections
are likely to occur. Consult
your veterinarian for
assistance in the diagnosis
and prevention of
re-infection. In case of
re-infection with tapeworms
(*Dipylidium caninum*),
consult your veterinarian
for advice on how to
remove fleas from the
dog and the environment.

Manufactured for:

Durvet, Inc.
100 S.E. Magellan Drive
Blue Springs, MO 64014

Storage: Store at
controlled room temperature
of 59-86°F (15-30°C).

**Approved by FDA
under NADA #141-261**

Other Information:

Recommended De-Worming Schedule:

Consult your veterinarian
for assistance in the
diagnosis, treatment,
and control of parasitism.
De-worming schedules
may vary depending
on the climate where
you live and the activity
of your dog.
