

Non-Staining & Rich Lather Formula
Enriched with Skin & Coat Moisturizers

DIRECTIONS: Wet animal completely. Add 1/2 to 1 ounce of Iodine Shampoo at a time to a wet sponge or soft brush. Apply directly to the area of concern and work into a rich lather over the entire body. Rub briskly with hands or soft rubber curry to work the lather down into the skin and allow lather to stand 5-10 minutes before rinsing. Rinse thoroughly with clean water. Repeat on heavily soiled area. Towel dry or use soft squeegee to remove excess water.
