Our Story

For more than 50 years, Durvet has been built on a simple but powerful idea: when distributors and dealers are supported with the right products, pricing, and partnerships, everyone succeeds. Since opening its doors in 1970 with a van, a small warehouse, and a bold vision, Durvet has helped shape the over-the-counter animal health market by connecting trusted manufacturing with a distribution model built for reliability.

Today, Durvet is proud to be owned by 22 independent distributor members and partner with the dealers they serve to offer a broad portfolio of dependable animal health solutions across livestock, equine, poultry, and companion animal categories. This catalog represents more than products on a page – it reflects commitment to quality, affordability, and reliability, the qualities your customers expect when they walk into your store.

Durvet is a name farmers, ranchers, and pet owners recognize and trust, and one that helps you support your customers with confidence.

Our Mission

We fulfill our mission by delivering products and programs that support your business at every level – helping you drive sales, build customer trust, and compete with confidence. That mission is grounded in three principles that guide everything we do.

Healthy Animals. Healthy Savings. Healthy Value.

By operating efficiently, investing in innovation, and standing behind the Durvet name, we help ensure the products you carry perform on the shelf and in the barn – today and for years to come.

Our Values

Delivering Superior Service

We exist to serve our distributor members and their dealers with accuracy, efficiency, and responsiveness. From streamlined logistics to dependable supply, our goal is to help you stay stocked, competitive, and confident in what you offer your customers.

Focusing on People

Strong businesses are built on strong relationships, and we believe long-term success comes from working alongside you to understand your market and your customers.

Focusing on Animals

Animal health is at the core of everything we do. Whether it's livestock that supports livelihoods or pets that are part of the family, we stand behind products designed to deliver consistent, proven results animals and their care takers depend on.

HORN FLY CONTROL WITH A "ONE-TWO PUNCH".

AiM-L VetCaps (lambda-cyhalothrin) works with AiM-A (abamectin) VetCaps for effective horn fly control. Their unique chemistries and modes-of-action deliver a "one-two punch" for the treatment of profit-robbing parasites in your herd, while fitting perfectly into your insecticide resistance management program. By rotating chemical classes, parasites have less time to develop their defenses.

SAMPLE ROTATION SCHEDULE

The following is a sample rotation schedule of how AiM-L and AiM-A VetCaps could be used for control of horn flies if the first treatment of the season is with ivermectin.

STEP 1 Treat with AiM-L when flies start to appear

STEP 2 Treat with AiM-A when flies approach approximately 200/animal

STEP 3 Treat with AiM-L four weeks after AiM-A treatment

STEP 4 Treat with AiM-A when flies approach approximately 200/animal

L AiM-L **A** AiM-A During winter and early spring, treat with 2x AiM-L two weeks apart to control lice

To learn more about VetGun, visit www.huvepharma.us/product/vetgun

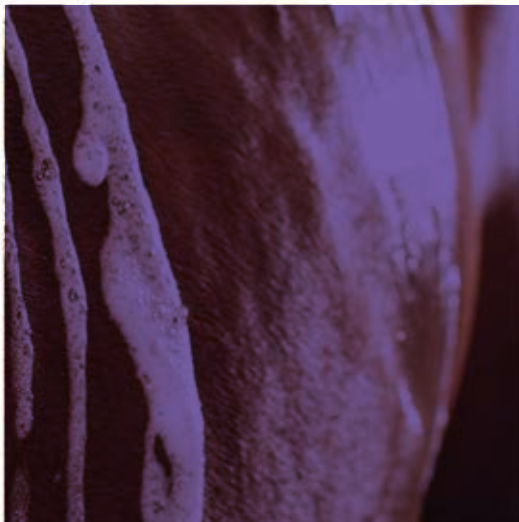

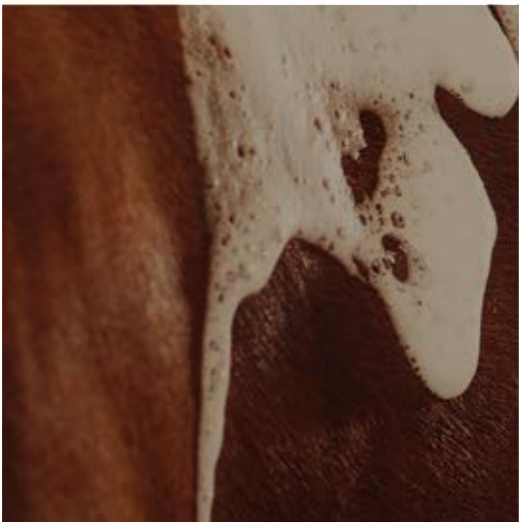

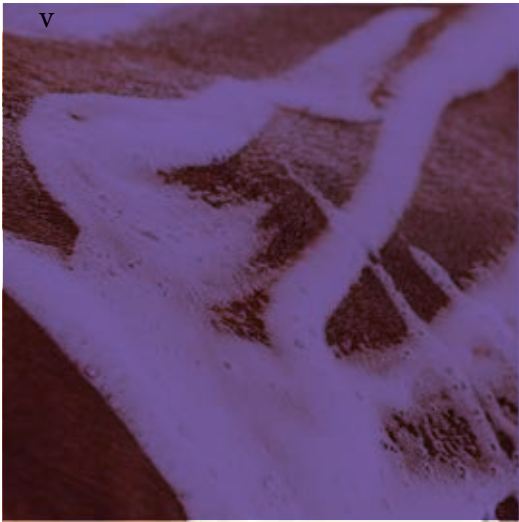

AiM-A has a 42 day withholding period

AiM-L has a zero day withholding period

It is best practice to consider a complete pest control program suited for your operation. Before using, read all label information for use, application, precautions and warnings.

AiM-A & AiM-L are trademarks of Huvepharma, Inc. VetGun & VetCaps are trademarks of SmartVet USA, Inc.

GROOMING

GROOMING

Bacterial, fungal, and yeast exposure is commonly associated with equine skin issues. Labeled for dermatological conditions such as ringworm and dermatitis, Antifungal Shampoo is intended for use as part of a regular bathing and grooming routine. A practical grooming essential for horse owners focused on routine skin care.

Antifungal Shampoo

Horses

Antifungal Shampoo is formulated with high-quality ingredients to eliminate fungal and scale problems. Exfoliants and nutrients promote hair growth and a healthier looking coat and mane.

NUTRITIONAL SUPPORT

When colostrum is needed, products formulated as colostrum replacers are designed to provide higher levels of immunoglobulins and greater nutrient density than supplements. These products are intended to support early-life nutrition programs and are a practical option for producers managing newborn calf care.

Dura-Start™ 100

Cattle

A premium complete colostrum replacer for newborn calves when maternal colostrum is inadequate, delivering reliable nutrition, immune support, and 100 grams of globulin protein in a single feeding for a strong, healthy start.

001-10296 12.3 oz 10/cs UPC# 7-45801-10296-5

HenHance™

Poultry

An easy-to-use poultry supplement designed to enhance everyday feed. Supports a longer laying cycle, strengthens immune response, promotes healthy footpads, and improves both egg and feather quality—while aiding in better nutrient absorption.

002-00501 2.5 lb 9/cs UPC# 7-45801-00599-0

PAIN MANAGEMENT

PAIN MANAGEMENT

Labeled for the temporary relief of pain, fever, and inflammation associated with wounds and cuts. Apple-flavored to enhance palatability, offering an easy-to-use option compared to top-dress applications.

AspirEze™ Gel

Horses

An apple-flavored, microencapsulated, buffered equine gel with aspirin USP for temporary relief of pain, fever, and inflammation from wounds, cuts, abrasions, soft tissue injuries, arthritis, and joint pain in horses.

001-0532 80 cc 6/cs UPC# 7-45801-10532-4

Available in a 6 ct display!

AspirEze™ Plus

Horses

This apple-flavored, microencapsulated, buffered aspirin granules provide temporary relief of pain and inflammation from arthritis and soft tissue injuries in horses. It offers precise dosing, a smaller dose size, and is safe for long-term use.

001-0548 1.05 lb 12/cs UPC# 7-45801-10548-5
001-0549 3.15 lb 6/cs UPC# 7-45801-10549-2

AspirFlex™ Gel

Dogs

Indicated for use in dogs for temporary relief of arthritis pain or inflammation. AspirFlex has anti-inflammatory, anti-pyretic (fever reducing) and analgesic (pain reducing) properties. Contains 250 mg of aspirin per 0.5 cc.

001-0535 30 cc 12/cs UPC# 7-45801-10535-5

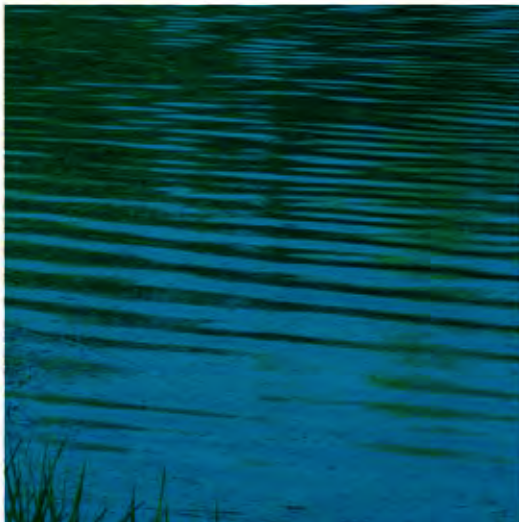

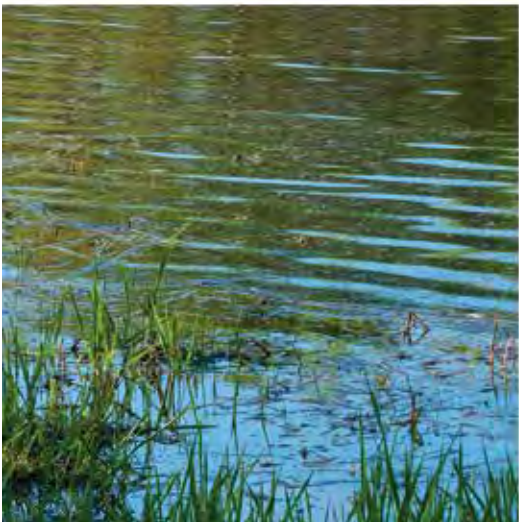

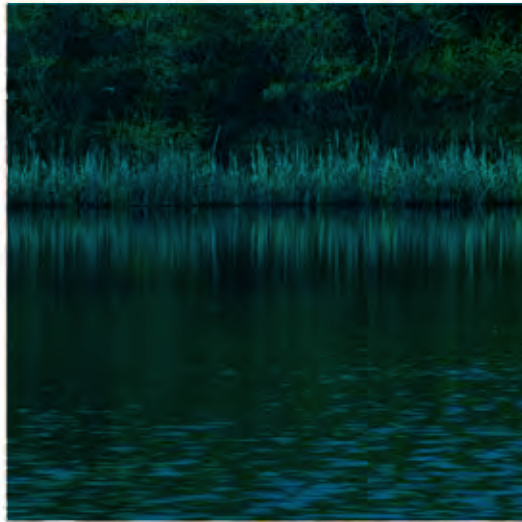

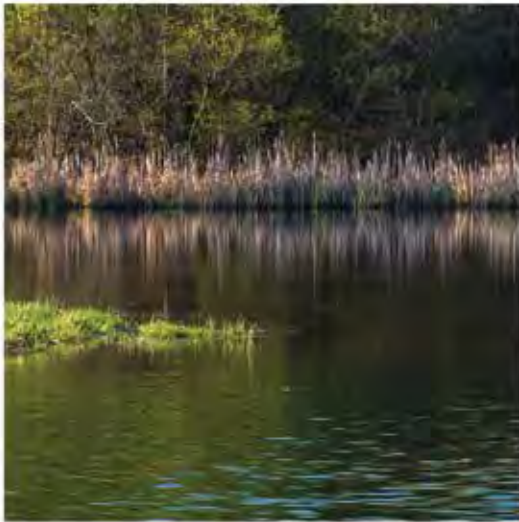

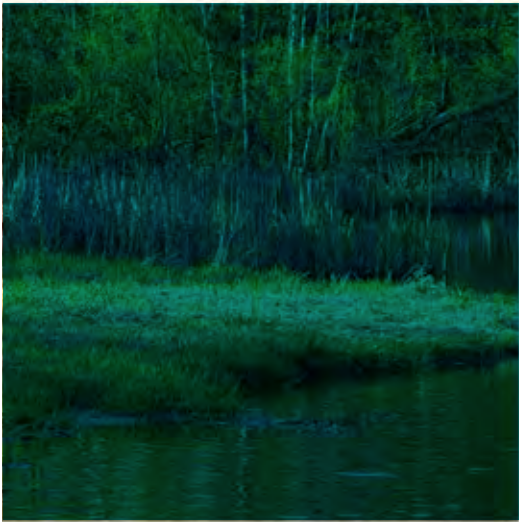

Aspirin Bolus 240 Grains

Cattle • Horses

For oral use to reduce fever and relieve minor muscle and joint pain in cattle, calves, horses, and foals. Fast-acting 240-grain boluses contain readily absorbed salicylates that relieve pain and help lower body temperature during heat stress.

001-DQP0075 50 ct 12/cs UPC# 7-45801-10075-6

POND MANAGEMENT

POND MANAGEMENT

- Water stays bluer, longer for better depth enhancement
- Enhances natural appearance
- 100% safe for fish, waterfowl, livestock, pets & swimming – immediately after treatment

Convenient
throw packs
available!

AquaVet® Blue Pond Dye

Aquatic Treatment

Enhances depth by adding a beautiful blue color to your pond or lake. Just pour/throw in from shore. Stays in suspension longer creating depth protection. Safe for fish, waterfowl, livestock, pets and swimming. Made in the U.S.A.

039-00107 8 oz throw pack 4/cs UPC# 7-45801-00107-7

039-00100 1 gal 4/cs UPC# 7-45801-00100-8

AquaVet® Algae Control

Aquatic Treatment

Delivers residual control of algae and aquatic plants, with a formulation that extends copper effectiveness for longer exposure. It can be applied in any conditions, day or night, and is best used when livestock water use is low.

039-01031 1 qt (Stock Tanks) 4/cs UPC# 7-45801-01031-4

039-00103 1 gal 4/cs UPC# 7-45801-00103-9

*Not for sale in AK, CA, CT, HI, ME, NV, or NY.

AquaVet® Copper Sulfate

Aquatic Treatment

Algaecide and herbicide for controlling floating, submerged, and planktonic algae in ponds and lakes. Apply 2.5–4 lbs per acre mixed with water and treat no more than ¼– of the surface at a time. Retreat as needed and safe for immediate water use.

039-00112 5 lb 6/cs UPC# 7-45801-00112-1

039-00111 15 lb 2/cs UPC# 7-45801-00111-4

*Not for sale in AK, CA, CT, HI, ME, or NY.

AquaVet® Bahama Blue Pond Dye

Aquatic Treatment

Enhances depth by adding a beautiful Bahama blue color to your pond or lake. Just pour/throw in from shore. Stays in suspension longer creating depth protection. Safe for fish, waterfowl, livestock, pets and swimming. Made in the U.S.A.

039-00114 1 gal 4/cs UPC# 7-45801-00114-5

AquaVet® Bio Pond Cleaner

Aquatic Treatment

This concentrated probiotic formula, featuring BIOSTART™ Complex, promotes natural breakdown of sludge and muck in water with heavy organic debris. Works in cold or warm water and supports year-round treatment.

039-00102 1 gal 4/cs UPC# 7-45801-00102-2

AquaVet® Black Pond Dye

Aquatic Treatment

Enhances depth by adding a beautiful mirror-like black color to your pond or lake. Just pour/throw in from shore. Stays in suspension longer creating depth protection. Safe for fish, waterfowl, livestock, pets and swimming. Made in the U.S.A.

039-00108 8 oz throw pack 4/cs UPC# 7-45801-00108-4

039-00101 1 gal 4/cs UPC# 7-45801-00101-5

AquaVet® Shoreline Weeds

Aquatic Treatment

Landscape and aquatic herbicide for emergent shoreline weeds like cattails. Works best on actively growing plants; add a non-ionic surfactant for better uptake. Non-selective and kills to the root. Mix 1.5 oz per gallon plus surfactant.

039-00105 1 qt 4/cs UPC# 7-45801-00105-3

AquaVet® Submerged Weeds

Aquatic Treatment

Landscape and aquatic herbicide for fast control of surface and submerged weeds. Burns off duckweed and watermeal; add a non-ionic surfactant to enhance results. Can be tank-mixed with AquaVet Algae Control for broader control.

039-00104 1 qt 4/cs UPC# 7-45801-00104-6

039-01041 1 gal 4/cs UPC# 7-45801-01041-3

AquaVet® Surf Surfactant

Aquatic Treatment

Non-ionic, water-soluble surfactant that improves herbicide absorption and coverage for aquatic and agricultural applications, helping sprays adhere and reach leaf surfaces more effectively.

039-00106 8 oz 12/cs UPC# 7-45801-00106-0
